Bern University of Applied Sciences

Facts and Figures

The Bern University of Applied Sciences BFH is situated in the canton of Bern in 1997 which hosts the Swiss capital of the same name. It enrolled 6775 students and 2934 staff which includes 312 professors. The BFH comprises six departments in various locations in and near Bern. Its students are enrolled in 29 bachelor degree programmes, 19 master degree programmes and a variety of executive master, diploma and certificate of advanced studies programmes as well as seminars.

In 2013, more than 400 large research projects (> CHF 50,000) were being carried out in all six departments of Bern University of Applied Sciences BFH. Many of these projects are rooted in practical life and thus generate cultural, social or economic benefits. The figures for 2013 stand as proof of the strong practical application of our research and development:

Over 700 partners from business, society, the cultural world and the public service, as well as from other higher education institutions, were involved in research projects and BFH contracts.
